

Special Announcement

KENNEDY
Industrial Grade. American Made.™ Since 1911.

COVID-19

Stay Strong. Stay Healthy. Stay Diligent.

Effective May 4, 2020

You did it! You hung in right there beside us and we thank you!

As we enter this opening phase, we want you to know we are fully prepared to get back to work and bring you the quality product you have always come to know and appreciate. We will be following strict guidelines to keep our employees safe and healthy.

During the Ohio State Stay at Home Order, although we ceased manufacturing, we continued to ship from our stock of both toolboxes and accessories. With that in mind, we are now low or have depleted stock of some part numbers. Lead times may change temporarily while we build stock back up to our minimums. We will keep you updated with your order status and contact you with any updates that affect your delivery.

For orders please send them through **EDI** if you have been enabled. Otherwise, send all orders to customerservice@kennedymfg.com.

Your patronage, patience and loyalty to Kennedy is immeasurable. You have been part of our family since 1911 and our hearts and continued prayers are with each of you and your families.
